Concepts & practices
REST APIs / MVC-MVCS / OOP / RAG pipelines / AI integration / JUnitMockito

EDUCATION

Code For All_
Software Engineering & AI Bootcamp
Completed: August 2026

Universidade da Beira Interior
Industrial Design
2012 – present (on hold)

LANGUAGES

Portuguese (Native)
English (B1)

SOFT SKILLS

Communication and client orientation
Self-directed learning
Problem solving Organisation and priority management
Adaptability (career transition)
Collaborative development (pair & team)

PROJECTS

FleetWise AI

- Full-stack fleet platform: Spring Boot REST API + Angular dashboard, deployed in production.
- JWT authentication, role-based access.
- Multi-company vehicle scope, CRUD UI, analytics and AI insights.
- PostgreSQL, Docker, GitHub Actions; live demo with seeded data.

DEMO: https://fleetwise-ai-hceggkcpacd0a0he.spaincentral-01.azurewebsites.net/login

Bender's Casino (Full-stack Team)

- Full-stack Blackjack SPA built in a team of 4.
- Back-end exposes a REST API with MVCS layering (Model / Service / Controller + DTOs).
- Vanilla JS front-end consumes the API via the History API with no framework.
- Integrates an external Deck of Cards API.
- Coordinated via Linear and GitHub collaboration.

LINK: https://github.com/MASG29/Bender-s-Casino

GameCloset

- Java console application for managing a games and consoles inventory.
- Built with OOP principles: encapsulation, inheritance, and polymorphism.
- Clean layered architecture (Model / Service / Repository). Dependency and build management via Maven.

LINK: https://github.com/diogompintoo/GameCloset

GameCloset Web (Full-stack)

- Web version of the GameCloset console app, migrated to a full Spring Boot architecture.
- REST endpoints expose inventory operations via HTTP.
- HTML front-end consumes the back-end directly.
- Demonstrates evolution from console to web: same domain logic, new delivery layer.
- Build and dependency management via Maven.

PROFESSIONAL EXPERIENCE

Commercial Representative (2021-25 - Eurobeiras)

- Managed a B2B client portfolio, consistently meeting sales targets.
- Tracked KPIs and adapted commercial strategy based on data.
- Built communication and negotiation skills applicable to client-facing technical roles.

Shift Supervisor (2018 -21 - Sportzone)

- Led a team of sales associates across daily operations, stock management, and service quality.
- Responsible for end-of-shift reporting and team performance monitoring.
- Built organisational and priority management habits directly transferable to software development.
